SCIO Health Analytics™ Named to Inc. 5000 List for Second Consecutive Year
(Company achieved triple-digit growth in three-year period; value lies in providing insights into data)

WEST HARTFORD, CT, October 15, 2013 –SCIO Health Analytics™, a leading provider of actionable healthcare analytics solutions, has once again been named to Inc. magazine’s “500/5000 Fastest Growing Companies for 2013.” The company was ranked #1275 overall, #97 among healthcare companies and #15 among Connecticut-based companies.

“The triple-digit growth we have experienced over the past few years is the result of our ability to not only provide our customers with analytics, but also with the critical insight into that data that enables them to make the best decisions possible for their operational and financial health, as well as the health of their employees,” stated Siva Namasivayam, CEO, SCIO Health Analytics™.

Namasivayam explained that, “healthcare reform has created a paradigm shift in terms of how insurers and healthcare organizations are utilizing big data and analytics to better understand and improve quality of care,” adding that, “at this juncture, insight into the data that helps customers realize actions they need to take is becoming extremely valuable. In this environment of change, SCIO’s deep understanding of the marketplace and healthcare analytics is a real value-add for our customers.”

SCIO Health Analytics™ has rapidly expanded its delivery of data-driven analytics solutions to a marketplace eager for actionable insights and outcomes from the volume of data available in healthcare today. The company is positioned as a complete solutions partner, with a suite of core analytics solutions that impact healthcare cost and quality.

About SCIO Health Analytics™
